Casa Maria Antonia is a rare semi detached old property with very thick strong walls. Walking distance to Vinuela village and it has official off road parking with printed concrete, its the ideal, one level property to reform and make a home. An upper outdoor terrace offers over 20 m2 of outdoor space and great views over to the village. Inside could be rethought but there is currently 2 bedrooms, a lounge, a seperate kitchen, bathroom and a small store. Low maintenance and a low price this could be a great opportunity to improve cosmetically and use as a base or a rental property.
