Finca Carrion is located high up off the old railway track which ran between Zafarraya and Periana. A degree of track access emphasises the peace and tranquility expected once you arrive. Essentially part of a small hamlet this detached property sits at the front therefore obtaining uninterrupted, panoramic views across the entire Axarquia including Mount Maroma, Lake Vinuela and the Mediterranean in the distance. South facing with a gated and fully fenced plot the 2 bed property sits well with ample parking, terracing and a large pool and terrace located to the right. The price reflects the work required to bring this little gem back to its full potential but most is cosmetic or terrace adjustments. Ideal for those buyers wanting a retreat
