Casa Cuatro Vientos is located in the small hamlet of Venta Alta. An older property with some quirky aspects, the current owners have improved the large amount of living space and added a roof terrace. This is ideal for a buyer who requires a large amount of living area with minimum maintenance on the plot. There are five bedrooms in all, including two bathrooms, a kitchen, a spacious lounge with feature wood burner, a dining room as well as an attached garage. This property has great potential for a business purpose B+B, A weekend get away... Although a small budget may be required to modernise certain features, but this is reflected in the asking price.
